

# ClearCut™ Burrs

The ClearCut Advantage in Arthroscopy

Arthrex® 

Arthrex 5.5 mm ClearCut Burr

Competitive 5.5 mm Burr

## ClearCut™ Burrs

### Improved Visibility

The nearly invisible shroud improves visibility during arthroscopic use.

### Flush Cutting

The ClearCut Burr's cutting flutes are flush with the outer tube, allowing their use in a cutting-block technique.

### Dual Suction

Dual pathways virtually eliminate clogging, even if tissue gets wrapped around the inner shaft.

Product Description	Item Number
ClearCut TR Burr, $\phi$ 4.0 mm $\times$ 13 cm, 6 flute (a)	AR-8400CTS
ClearCut SLAP Burr, $\phi$ 4.0 mm $\times$ 13 cm, 6 flute (b)	AR-8400CSS

## Synergy<sup>Resection</sup>™ System

### SynergyResection Console - AR-8305 (c)

This versatile system was designed for multiple orthopedic procedures, featuring two channels that allow simultaneous handpiece operation. Both channels can be operated with a single footswitch or individually by connecting a second footswitch.

### Hand-Control Shaver Handpiece - AR-8332H (d)

This lightweight but powerful handpiece features a quick-snap collet that accepts all large hub shaver blades and burrs.

### Wireless Multifunction Footswitch - AR-8315W (e)

The radio frequency wireless footswitch comes with a dongle receiver that is plugged into the footswitch port of the console. The dongle receives the signal from the footswitch from virtually any direction. The gas pedal function and standard footswitch modes are selected with a GFS/SFS switch located on the front edge of the receiver. To switch between these functions, the footswitch must be laid flat on the floor.
